# CONTENTS

## No. 1—May

PAGE

LITTLE, KITTY. Observations on the nature and production of proteins in the intercellular matrices of connective tissues (Plates I–IV) . . . . . 1

DAVIES, J. DOUGLAS. Hyperelastosis, obliteration and fibrous plaques in major ducts of the human breast (Plates V and VI) . . . . . 13

HASLETON, P. S. Right ventricular hypertrophy in emphysema . . . . . 27

ANTHONY, P. P. Primary carcinoma of the liver: a study of 282 cases in Ugandan Africans (Plates VII–XV) . . . . . 37

HEATH, D., P. SMITH, P. HARRIS and M. WINSON. The atherosclerotic human carotid sinus (Plates XVI–XIX) . . . . . 49

PEGRUM, G. D., I. C. BALFOUR, CAROL A. EVANS and VALERIE L. MIDDLETON. Mixed cell cultures of normal and leukaemic cells . . . . . 59

DAWKINS, R. L., and G. LOEWI. Cytotoxic effect of antisera on $^{51}Cr$-labelled monolayers of skeletal muscle (Plate XX) . . . . . 67

KAZZAZ, B. A. Effect of 5-hydroxytryptophan on the differentiation of argyrophil to argentaffin cells in the intestine of the guinea-pig after pre-treatment with iproniazid and reserpine . . . . . 75

EMERY, JOHN L., and ROGER G. LENDON. The local cord lesion in neurospinal dysraphism (meningomyelocele) (Plates XXI–XXVI) . . . . . 83

CARTER, JULIE, S. W. B. EWEN, ELIZABETH GRAY and J. SWANSON BECK. The thymus in systemic sclerosis (Plates XXVII–XXIX) . . . . . 97

JONES, E. L., B. W. CODLING and G. D. OATES. Necrotic intraduct breast carcinomas simulating inflammatory lesions (Plates XXX and XXXI) . . . . . 101

HEATON, JULIET M. A study of brown adipose tissue in hypothermia (Plate XXXII) . 105

BEST, P. V. A medulloblastoma-like tumour with melanin formation (Plates XXXIII–XXXV) . . . . . 109

## No. 2—June

DUNNILL, M. S., and W. HALLEY. Some observations on the quantitative anatomy of the kidney (Plate XXXVI) . . . . . 113

MORGAN, K. T. An ultrastructural study of ovine polio-encephalomalacia (Plates XXXVII–XLII) . . . . . 123

VAN DIJK, C., and C. A. WAGENVOORT. The various types of congenital adenomatoid malformation of the lung (Plates XLIII–XLVI) . . . . . 131

PRATHAP, K. Spontaneous aortic lesions in wild adult Malaysian long-tailed monkeys (*Macaca irus*) (Plates XLVII–LII) . . . . . 135

PAGE

PRATHAP, K. The morphology of two-year-old healed platelet-rich thrombi in femoral arteries of normocholesterolaemic monkeys: light- and electron-microscope observations (Plates LIII–LV) . . . . . 145

SEVITT, S. The mechanisms of canalisation in deep vein thrombosis (Plates LVI–LXIV) . . . . . 153

CUMMINS, PATRICIA A., H. FOX and F. A. LANGLEY. An ultrastructural study of the nature and origin of the Brenner tumour of the ovary (Plates LXV–LXXVI) . 167

ROSSMANN, P., J. JIRKA, P. MÁLEK and J. HEJNAL. Histology and fine structure of necrotic renal allografts in man (Plates LXXVII–LXXXI) . . . . . 177

BOOKS RECEIVED . . . . . 191

**No. 3—July**

HALL, WILLIAM C., ROBERT M. KOVATCH and ROBERT L. SCHRICKER. Tularaemic pneumonia: pathogenesis of the aerosol-induced disease in monkeys (Plates LXXXII–LXXXV) . . . . . 193

PRATHAP, K. The natural history of platelet-rich mural thrombi in systemic arteries of hypercholesterolaemic monkeys: light- and electron-microscope observations (Plates LXXXVI–XCIII) . . . . . 203

PAPADIMITRIOU, J. M. Detection of macrophage receptors for heterologous IgG by scanning and transmission electron microscopy (Plates XCIV–XCVII) . . 213

TAYLOR, C. R. An immunofluorescence study of the identity of cells reacting with anti-lymphocytic sera (Plates XCVIII–CVI) . . . . . 221

WALKER, F. The origin, turnover and removal of glomerular basement-membrane (Plates CVII–CXI) . . . . . 233

HORVATH, E., K. KOVACS and R. C. ROSS. Subcellular features of alcoholic liver lesion: alcoholic hyalin (Plates CXII–CXX) . . . . . 245

CHANG, LAN F., and JOSEPH TABACHNICK. A sequential study of phosphatase activity in beta-irradiated guinea-pig skin and its correlation with the histological changes (Plates CXXI–CXXIV) . . . . . 251

FLEMING, K. A., and I. MORRICE. Sebaceous lymphadenoma of the parotid gland: a report of a case (Plates CXXV and CXXVI) . . . . . 259

OHARA, P. T. Electron-microscope findings on the muscle from an atypical case of infantile hypotonia (Plates CXXVII and CXXVIII)) . . . . . 263

REID, I. M. Hepatic nuclear glycogenosis in the cow: a light- and electron-microscope study (Plates CXXIX–CXXXII). . . . . 267

LEVIJ, I. S., and E. ROSENMANN. Bone-marrow embolus in systemic veins: a paradoxical finding at necropsy (Plates CXXXIII and CXXXIV) . . . . . 271

PROCEEDINGS OF THE SOCIETY . . . . . Pi

**No. 4—August**

PAGE

ANDERSON, E. G., G. SIMON and LYNNE REID. Primary and thrombo-embolic pulmonary hypertension: a quantitative pathological study (Plates CXXXV–CXXXVIII) . . . . . 273

WEIPERS, W. L., L. NAGY, H. M. PIRIE, J. SANFORD and R. PILLINGER. A comparison of the toxic effects of intestinal obstruction fluid with those of certain endotoxins (Plates CXXXIX–CXLI) . . . . . 295

TURNER, D. R., and D. J. M. WRIGHT. Lymphadenopathy in early syphilis (Plates CXLII–CXLV) . . . . . 305

HARRIS, M., JOAN M. SUMMERELL and A. V. SWAN. The prevalence of focal thyroiditis in Jamaican adults . . . . . 309

HEARD, BRIAN E., and SURAIYA HOSSAIN. Hyperplasia of bronchial muscle in asthma (Plate CXLVI) . . . . . 319

GOPINATH, C., and E. J. H. FORD. Modification of the hepatotoxic effect of chloroform and halothane in calves (Plates CXLVII and CXLVIII) . . 333

BÖHM, G. M. Changes in lung arterioles in pulmonary oedema induced in rats by alpha-naphthylthiourea (Plate CXLIX) . . . . . 343

DESA, D. J. Intimal cushions in foetal placental veins (Plates CL–CLIII) . . 347
